"There is no teaching in all the wide world of Hygiene as valuable as the inoculation of the idea that typhoid fever is a water-borne disease. Excluding a not common liability to the air-diffusion of its germs, we require this element unobscured from water directly, or from milk which has been fouled by polluted water. Pure water means practically the abolition of both typhoid fever and cholera. Our motto is to drink a pure Mineral Water only."

(Dr. ANDREW WILSON in the Illustrated London News.)
